Los Angeles County MTA Blue Line Photo Enforcement Services December 2007 Monthly Report

Executive Summary

ACS is pleased to present the monthly report for the Los Angeles County Metropolitan Transportation Authority's Photo Enforcement Services.

In December 2007, the photo enforcement project for the MTA Blue Line captured a total of 5,880 events. Of these, 1,221 were recorded as violations and 4,659 were non-violations. A total number of 352 citations have been issued reflecting a 29% Issuance Rate and a Prosecutable Issuance Rate of 48%.

Viewing the complete data for 2007, the Blue Line showed almost the same total percentage of violations since 2006, but citations were down almost 13%. Much of this was due to the shift in approaches being monitored (due to the Compton Quad Gate project) causing some down time related to approach restoration (putting older locations back into service). These issues have since been resolved, resulting in a return to form in the last 3 months of 2007. We should see these metrics continue to stabilize and return to historic levels through 2008.

City to add 10 red-light cameras Violations drop when Big Brother watches By ADAM TAYLOR, The News Journal

Posted Sunday, December 23, 2007

WILMINGTON -- Big Brother will get even bigger in the city next year, when the number of red-light cameras goes up from 15 to 25.

The increase is part of the new five-year contract the city signed with ACS State Local Solutions Inc., which has administered Wilmington's red-light camera program since it began in 2001.

The program has been a moneymaker for the city, bringing in more than \$2.8 million in the last three years alone.

In order to set up the system, the city agreed to hand over to ACS 57 percent of the revenue it collected from red-light runners.

This time around, ACS will get only 37.5 percent of the revenue from the tickets, because the company's costs are lower now that the system that supports the cameras is in place.

The tickets have also made the intersections safer, with violations having gone down an average of 70 percent since the cameras were installed, city Communications Director John Rago said.

"This program was instituted for public safety, not revenue, even though it does produce revenue," he said. "We've made the most dangerous intersections in the city less dangerous by decreasing the number of people who have run red lights through them by 70 percent. This has been an effort to change people's behavior."

The city could not provide accident statistics for the intersections, but motorists seem to have gotten the point.

The cameras caught 19,877 violators in the 2005 fiscal year, 14,769 the next year, and 12,758 the year after that, according to city records. The tickets are \$75 and rise to \$105 if not paid in three months.

Five of the new intersections have been selected. Cameras will be installed on 30th Street at Market Street, Concord Avenue at Broom Street, Lovering Avenu at the Augustine Cut-off, Walnut Street at Second Street and Concord Avenue at Market Street. The cameras only catch people going in one direction, and city records don't specify which side of the streets the cameras will be installed on. That information will be made public soon, Rago said.

The intersections were chosen after a survey by ACS showed they were among the most dangerous, judging by how many people were running the red lights there. The other five locations will be chosen early next year.

Cameras are currently installed at Walnut Street at A Street, King Street at Fourth Street, Pennsylvania Avenue at Woodlawn Avenue, Second Street at Adams Street, Union Street and Prospect Road, Concord Avenue at Broom Street, Church Street at 11th Street, 12th Street at Washington Street, Martin Luther King Boulevard at West Street, Fourth Street at Scott Street, Lancaster Avenue at Lincoln Street, Union Street at Maple Street, Heald Street at Christina Avenue, Union Street at Fourth Street and Lancaster Avenue at Dupont Street.

"I'd like to see some of those cameras deactivated, now that they've served their purpose," Councilman Kevin F. Kelley Sr. said.

"People have slowed down there. We should consider leaving the cameras there as a deterrent, though," he said.

The cameras, which cost about \$100,000 at each intersection, are connected to underground sensors at the stoplights. The sensor activates when a vehicle approaches at high speed while the light is red. Pictures of the vehicle are taken after it goes through the red light. The photos are reviewed by ACS employees and Wilmington police officers before a ticket is sent to the owner.

About 20 percent of the ticket fines have not been collected, city records show. But that number is expected to go down, because the city recently added redlight delinquents to its traffic booting program.

Kelley, the chairman of the council's Public Works Committee, said the program should be expanded. And he predicted more technology for the city in the near future.

"I don't think 25 cameras is nearly enough for Wilmington," he said. "And I think we'll see photo radar to catch speeders next. Big Brother's getting everybody, baby."

Contact Adam Taylor at 324-2787 or ataylor@delawareonline.com.

Camera Vendor Under Investigation for Mail Fraud

United States Postal Inspection Service collects evidence to determine whether photo enforcement vendor violated mail fraud statutes.

The Newspaper.com

Redflex, an Australian company that operates red light cameras and speed cameras for more than 170 US cities, is under scrutiny by the United States Postal Inspection Service. Stephanie Ware, a private investigator in Lafayette, Louisiana, filed a complaint with the federal agency after she received a ticket in the mail in November.

"It was for my sixteen-year-old daughter but it stated that since I own the vehicle, I must pay," Ware explained to TheNewspaper. "I was not going to pay it and I didn't."

Ware then received a default notice from Redflex's office in Scottsdale, Arizona. The envelope was labeled: "Official Government Business: Response Required" (view envelope). Ware said that the letter contained inside amounted to an extortion demand.

"Inside it said that I failed to pay the invoice and because of that I gave up my right to contest it," Ware said. "No grace period -- send the money now or we can sue you, immobilize your vehicle or report you to a collection agency." (View letter)

The use of the phrase "official government business" on an envelope by a non-governmental entity raises red flags for the US Postal Service and could violate a statute prohibiting mail that implies a false connection with the federal government as (39 USC Section 3001).

KVOL radio talk show host Todd C. Elliott set up a website to assist anyone who has received a citation in the mail from Redflex in forwarding a copy to the postal inspector as evidence. The website can be found at: ReportRedflex.com

The Louisiana State Board of Private Investigator Examiners is also currently investigating whether Redflex has violated a state law requiring private investigator licenses for anyone in the business of providing photographic evidence for use in court cases.
