Executive Summary

In December 2014, the photo enforcement project for the City of West Hollywood captured 2,585 events. The project recorded 906 violations and 1,679 non-violations. The Sheriff's Department issued 319 citations reflecting a 35% issuance rate and a controllable issuance rate of 90%.

In December there were the following controllable non-issued violations:

- 23 identified as dark interior (no pattern, usual issues of sun glare)
- 4 identified as equipment malfunction (1 at 3112 and 3 at 3141, isolated, no flash)
- 10 identified as operator data error (3112 between 12/18 and 12/20, data box error)

Due to roadway construction initiated by the City of Los Angeles, the loops at locations 3112 and 3144 were cut. The loops were restored by the city at the start of November and by November 4th both locations were back in service. Unfortunately 3144 required additional work (pole harness replacement) and was down again through the second half of December. As of now (January 2015) this site has been restored.

Also due to roadway construction initiated by the building project at 3143, the camera was taken out of service on 9/15 and moved to location 3154.

Due to loop integrity issues, the cameras at locations 3113, 3142, 3161, 3162 and 3164 were scheduled for service (re-cutting the loops). The cameras were moved to 3123, 3124, 3153 and 3154 until loop repairs were completed. All but 2 locations have since been restored (Jan 2015).

In the News - Photo Enforcement Around the Country

California Appeal Court Finds Red Light Cameras Unreliable

Second highest court in California finds the questionable calibration of a red light camera rendered its evidence unreliable.
www.thenewspaper.com

Legal controversy continues to dog California's automated enforcement programs, despite the best effort of state lawmakers to encourage photo ticketing. The second-highest court in California decided Thursday that the red light camera program in Riverside "did not produce reliable evidence" in rejecting the \$500 citation that Redflex, a private, for-profit vendor, had mailed to Viktors Andris Rekte.

Rekte, a lawyer, challenged the ticket he received for allegedly making a rolling right turn a split-second after the signal turned red at the intersection of Tyler Street and State Route 91 on October 26, 2012. Rekte argued the charge should be thrown out because the yellow light was illegally short; he was not provided a copy of the video evidence before trial; the photo ticketing vendor set up equipment in a way that obscured the view of the traffic signal; and the evidence produced by Redflex lacked a proper foundation.

Don Teagarden, a city employee, testified that he "reviewed" the ticket that Redflex sent to him. Since Redflex bills its service as a "turn key" operation, Teagarden proved to have little to do with the process. His direct knowledge of the evidence was limited.

"On cross-examination, operator Teagarden acknowledged he could not tell if the monthly inspections of the equipment conducted by Redflex included verification of the time intervals for the signal lights, and did not know if anyone employed by the city of Riverside checked to make sure the system was calibrated properly," Justice Manuel A. Ramirez wrote for the Court of Appeal majority.

Video proof showed the yellow time at the location in question lasted just 3.5 seconds, 0.1 seconds short of the minimum allowed for the intersection under California's rules. An expert witness also showed that the red light camera setup obscured 41 percent of the traffic signal light for someone making a turn.

In June, the California Supreme Court rescued red light cameras from a series of evidentiary legal challenges by accepting the state legislature's declaration that photo evidence must be presumed reliable. Here, the court majority was persuaded that Rekte had overcome the presumption with solid evidence of unreliability. The Redflex system said the yellow time was 3.65 seconds, when the video evidence proved the timing was actually 3.5 seconds. The system was, therefore, improperly calibrated.

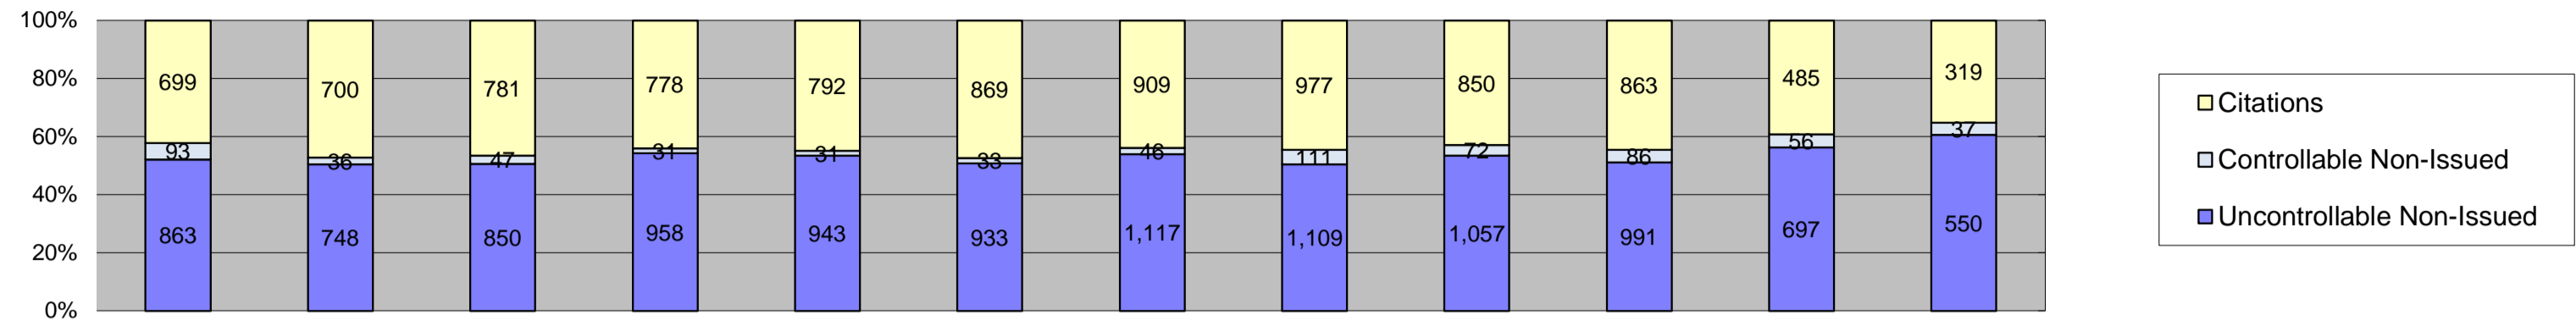

"Where the opposing party produces evidence undermining the presumption, the presumption is disregarded and the trier of fact must decide the question without regard to it," Justice Ramirez wrote. "In other words, the other party is no longer aided by the presumption and must prove the fact in question."

The majority also expressed disapproval of the dangerous state of the intersection and declared the evidence produced by a questionably calibrated device inadmissible.

"An inadequate yellow light interval renders a safe stop impossible, and constitutes an emergency justifying the entry into an intersection when the signal turns red," Justice Ramirez wrote. "Because the digital images were previewed by Redflex before being forwarded to the Riverside Police Department, and because digital images are susceptible to manipulation, it was incumbent upon the city to introduce evidence that the printed representations were accurate. Otherwise, the images were inadmissible because they were not properly authenticated."

<i>Section D Void</i>	109	\$0	183	\$0	2,060	\$0	172	\$0	248	\$0
<i>Traffic School</i>	112	\$44,897	121	\$58,504	1,884	\$920,400	157	\$76,700	170	\$88,652
Court Gross Total	1028	\$108,796	1,062	\$136,384	13,810	\$2,138,486	1,151	\$178,207	1,168	\$259,224
City Gross Total*	261	\$38,382	298	\$43,762	4,457	\$655,382	371	\$54,615	500	\$73,463

*Logic built on following model (assuming the new 2009 fine and fee structure):

City receives \$146.31 of \$446.00 citation where bail forfeiture and fine paid occurs

City receives \$148.05 of \$509.00 citation when traffic school option is paid for
