PRESS RELEASE

For Immediate Release
June 25, 2015

NEW RED LIGHT DIGITAL CAMERA SYSTEM LOCATION

The Rancho Cordova Police Department's Red Light Photo Enforcement Program has placed a new digital red light photo enforcement camera system on Sunrise Boulevard at Folsom Boulevard, within the City of Rancho Cordova. The new system is currently being tested and is scheduled to go "live" on Saturday, August 1, 2015 at 12:01 a.m.

For a period of at least thirty days, red light violators will be mailed a warning notice. On August 1, 2015 at 12:01 a.m., red light violators at this intersection will begin to receive citations by mail. When a citation is issued and received by the violator, it will include a referral to a website where the violator can view the still images and video footage of the violation. The violator should be able to clearly see where their vehicle was in relation to the intersection's limit line, and the green, yellow and red lights.

Increased traffic safety is the number one priority of the Rancho Cordova Police Department Red Light Photo Enforcement Program. Studies have shown a significant reduction in red-light related crashes at photo-enforced intersections.

For inquiries regarding this system, please contact the program coordinator, Sergeant Alex McCamy, at 916-876-6675 or via e-mail at amccamy@ranchocordovapd.com.
