

**SFMTA**

Municipal  
Transportation  
Agency

**MEMORANDUM**

**TO:** Tom Maguire *Tom Maguire*  
Director of Sustainable Streets

**FROM:** Ricardo Olea *R. Olea*  
City Traffic Engineer

**DATE:** April 29, 2016

**SUBJECT:** Review of locations of red light camera enforcement (April 2016)

This memo is to recommend the substitution of three enforced approaches to the draft Agreement between the City and County of San Francisco and American Traffic Solutions, Inc. This is based on most recent 2014 and 2015 crash data available after the original selection of approaches to be enforced, which was made in a December 2014 report.

We recommend substituting the following locations:

1. Howard Street westbound at 9<sup>th</sup> Street. No reported 21453A red light violation crashes in the 2013-2015 reporting period.
2. 1<sup>st</sup> Street southbound at Folsom Street. No reported 21453A red light violation crashes in the 2013-2015 reporting period.
3. Park Presidio Boulevard northbound at Lake Street. No reported 21453A red light violation crashes in the 2013-2015 reporting period (one collision reported for the southbound approach).

The new locations to be enforced would be:

1. 8<sup>th</sup> Street, southbound at Folsom Street. There have been 6 reported red light running crashes 21453A in the 2013-2015 reporting period, the two most recent ones in the southbound approach.
2. Divisadero Street northbound at Bush Street. There have been 7 reported red light running crashes 21453A, six of these in the northbound approach. Enforcing this approach may also have a beneficial effect on Divisadero and Pine Street, which had a total of five 21453A injury crashes in the same period.
3. Van Ness Avenue, southbound at Broadway, left turn movement. As part of the discussions over the Van Ness Bus Rapid Transit project there was a recommendation made to place automated enforcement for the southbound left turn lanes due to improve safety of center-running transit. Intersection overall has five 21453A collisions in the 2013-2015 reporting period.

We have obtained clearance to make these changes at this time since they will not result in a net change in the total number of enforced approaches in the contract.

**Summary of Previous Approach Red Light Systems in RFP (with 2013-2015 total injury crashes for the intersection in parenthesis)**

19th Ave NB at Sloat Blvd – Recommend keeping (11 injury crashes)

19th Ave SB at Sloat Boulevard – Recommend keeping (11 injury crashes)

**1st St SB at Folsom St – Recommend substituting (5 injury crashes)**

6th St SB at Bryant St – Recommend keeping (10 injury crashes)

Bryant St EB at 6th St – Recommend keeping (10 injury crashes)

Fell St WB left lane at Masonic – Recommend keeping (15 injury crashes)

Hayes St WB at Polk St – Recommend keeping (4 injury crashes but two 21453A violations)

Polk St SB at Hayes St – Recommend keeping (4 injury crashes but two 21453A violations)

**Howard St WB at 9th St – Recommend substituting (1 injury crash)**

Oak St EB at Octavia Blvd – Recommend keeping (23 injury crashes)

Octavia Blvd NB at Oak St – Recommend keeping (23 injury crashes)

Eastbound right turn lanes on Oak Street at Octavia Boulevard (new) – Recommend keeping (23 injury crashes)

**Park Presidio Blvd NB at Lake – Recommend substituting (5 injury crashes)**

Park Presidio Blvd SB at Lake - Recommend keeping (5 injury crashes)

So. Van Ness Ave NB at 14th St – Recommend keeping (9 injury crashes)

Market St EB at Octavia Blvd (separate right turn enforcement system) – Recommend keeping (21 injury crashes)

Southbound 4th Street at Harrison Street (new) – Recommend keeping (9 injury crashes)

Westbound Harrison Street at 4th Street (new) – Recommend keeping (9 injury crashes)

Southbound 6th Street at Folsom Street (new) – Recommend keeping (18 injury crashes)
